I had cough, night sweats, fever and raised quantities of awful-looking stuff and later I had many hemorrhages; at one time three in three successive days. Milk and egge became so distacteful I could keep nothing down. Three physicians treated me. I was ordered to the mountains, but did not go. Bekman's Alterative was recommended by a friend. After taking a small quantity I had the first quiet night's sleep for weeks. My improvement was marked from the first. I gained strength and weight and appetite. I never had another hemorrhage and my cough gradually lessened until entirely gone. I am perfectly well."
